

CIN: Our 5 priorities

Visits will be planned in diaries and will include statutory visits and direct work with the child/ren away from the family home

CIN reviews will take place every 3 months where the CIN plan and timeline will be reviewed and the CIN plan updated

Families who no longer require statutory intervention will step down to EH, targeted or universal services.

Managers will review all CIN cases and close those who no longer requires CSC involvement

Every child will have an up to date C&F assessment dated within the last 12 months

Every child open under CIN will have an up-to-date case summary (within last 10 weeks) on the new format by the end of the month.
